### **Summary of Event:**

The workshop on Design thinking mainly focuses on identifying problems in search of potential solutions of the problems. The resource person of the event was Dr. Saptarshi Chatterjee (Associate Director of Incubation Center and Chief Coordinator and Principal Project Investigator of E-YUVA Centre, Adamas University). The workshop took place on 5<sup>th</sup> January, 2022 from 1 pm to 3 pm. The main objective of the workshop was to discuss all the steps of design thinking and know it's importance.

### **Objective:**

The main objective of the workshop was to make everyone understand the importance of design thinking in everyday life.

### **Event details:**

The workshop on Design Thinking took place on 6<sup>th</sup> January 2022, organized by Adamas University, Center for Incubation. The main focus of the workshop was to discuss the step of design thinking and to understand its concept for applying it in daily life. The resource person of the even was Dr. Saptarshi Chatterjee (Associate Director, Incubation & Chief coordinator E-YUVA Centre, BIRAC, Adamas University). The basic need in design thinking is to

empathise for proper understanding of the problem followed by ideation and defining the problem. The most important step includes prototyping to explore superior solution and the final step is to test and implement the idea. The entire program has helped the participants to strategize and develop problem solving skills in every individual.
